Heartspring’s Autism Services program provides services and resources for individuals and families affected by Autism Spectrum Disorder. It consists of Applied Behavior Analysis and the Community of Autism Resources and Education (CARE) program.

Applied Behavior Analysis
Heartspring’s ABA services are evidenced-based treatments designed to empower parents to provide the support and guidance a child impacted by autism needs to be successful in his or her natural environment. Service structure varies by child and can include one-on-one therapy services, parent training, office visits, home visits, coordination of care with other facilities and therapies, and natural-environment training. Heartspring has a focus on a comprehensive intensive service model for children who are under the age of five through Early Intensive Behavioral Intervention (EIBI).

ABA Services Offered:
- An experienced and knowledgeable team for each child composed of a board-certified behavior analyst (BCBA), board-certified assistant behavior analyst (BCaBA) and/or autism specialist, program coordinator, and behavior technicians.
- In-depth assessment and evaluation of your child’s needs.
- Individualized programming to meet program goals in the following areas:
  - Receptive Language
  - Expressive Language
  - Nonverbal Language
  - Joint Attention and Imitation Skills
  - Social and Recreation/Leisure Skills
  - Community and Group Readiness Skills
  - Family Environment Training and Development
  - Concept Formation Skills
  - Self-Help and Independent Living Skills
  - Gross and Fine Motor Development

“We love Heartspring! They have changed our lives for the better, immeasurably. I cannot say enough wonderful things about [Autism Services] and the incredible, caring, well-trained staff at Heartspring.”

- Autism Services Parent

Community of Autism Resources and Education (CARE) Program
Heartspring’s CARE program is dedicated to increasing opportunities for families impacted by autism in the community.

CARE Clubs
CARE Clubs offer a wide range of social-skill building opportunities to help children and adolescents learn valuable skills necessary for social and emotional development.

Camp SSTAR
Camp SSTAR is an innovative and life-changing program for children impacted by autism. Our goal for the summer months is to keep children engaged in the learning opportunities offered to them throughout the school year and help them continue their growth towards a successful, independent future.

Family Support Services

Autism CARE Walk
Heartspring’s Autism CARE Walk raises awareness for autism in Wichita and surrounding communities while also raising funds for Heartspring’s CARE Program. In 2019, more than 2,808 participants joined Team CARE and raised $108,540. To learn more, visit AutismCAREWalk.org.

Who’s your “1 in 59”? Autism is 10 times more common today than it was in the 1980s according to the Centers for Disease Control and Prevention (CDC). The CDC estimates that one in 59 children have been identified with ASD, suggesting there are more than 5,500 children in the Wichita area alone. Every one in 38 boys is impacted, which is four times more common than girls (with every one in 152 being impacted).
