## Our Story

In 1934, Heartspring was founded as “The Institute of Logopedics,” a nonprofit organization in partnership with Wichita State University. Our early service model prioritized children experiencing speech, hearing, and mobility challenges. Located on a beautiful 35-acre campus in Wichita, KS, Heartspring is now known as one of the most groundbreaking therapeutic schools and pediatric service centers in the world.

Heartspring serves children and young adults with multiple intellectual and developmental needs, such as: living with autism; challenges with speech, language, or communication; challenges with mobility and other motor functions; a limited ability to regulate emotions during times of stress; and other pediatric healthcare complexities.

We offer two models of treatment—a medical model in our outpatient services clinic or a school model in our therapeutic school. Whether your child requires our outpatient services or our intensive, therapeutic school, we look forward to guiding them on their path to greater independence.
